The Alabama Claims Commission will practically finish its report this month. There have been about 3,500 claims settled, involving some 20,000 persons. It now turns out that Cleveland isn't indebted to the Mugwump movement. It is claimed by the leading journals of New York that his majority in that State last year would have been not less than 5,000 had the Mugwumps not driven away the Independent Irish vote. "This settles it." Down with the Mugwumps! The Democrats will get along without them, hereafter.

The Philadelphia Record says: "A great deal of balderdash has been written on the subject of Mr. Cleveland's contribution to the Democratic campaign fund in New York. The Record knows of no standpoint from which the President's act can be criticized. The leading Democrat of New York, it is natural he should spend the money. What fair-minded folk expect is that the President will neither help the b'ar nor hunter. And when we remember how, under recent administrations, a local election in an important State meant a hundred Federal officials on the stump, from Cabinet ministers down, a thousand clerks at work on campaign documents, or at headquarters, or with crisp, new \$2 bills, and thousands of Federal employees harried by the collectors of assessments, we must admit that reform has been a gigantic stride since Grover Cleveland assumed the Presidential office."

## THE SILVER QUESTION.

MR. WARNER FIGURES OUT 180 VOTES AGAINST SU PENSION.

It Would Appear That the Head Dollar Bill (will continue to be coined—the Andre Monument—Validation of Gen. Grant—Senator Sharon Dying.

CHICAGO, Nov. 6.—An investment agency of this city has issued the following circular: "The Hon. A. J. Warner stated in a paper read before the Chicago Commercial club, October 31, 1888, that 300 votes in the present house of representatives can be counted to oppose a suspension of the coinage of silver dollars, or words to that effect.

"As this matter is of great importance in a business point of view, and as doubt concerning it produces delay in enterprises, we are endeavoring to ascertain, as near as possible, the probabilities concerning the attitude of the present congress on this question, we find that of the 149 representatives who voted last winter against the suspension of the rules, in order to allow consideration of the civil appropriation bill, containing the clause authorizing the temporary suspension of the coinage of the silver dollar, ninety-five have been re-elected and are members of the present congress.

These may be counted on to vote in the same way again. Of the 118 votes in favor of suspending the silver dollar fifty-seven only have been re-elected. The silver men seem to have been more successful than their opponents in securing re-election. "Of the new members and of those not voting on this question last winter (1887-1888), more than one-half come from the parts of the country known to be opposed to the suspension of the coinage of silver dollars, therefore, probable that at least one hundred votes in the present house of representatives can be counted on to oppose and prevent any attempt to suspend silver circulation."

### The Andre Monument.

New York, Nov. 6.—Mr. Field said that he knew nothing of the blowing up of the Andre monument except what he had seen in the newspapers, as he had spent the day at Albany. He was not prepared to say whether or not he would rebuild the monument. He visited last week, Thursday, in company with Canon Farrar, Dr. Batterley, of Calvary church, and Dr. Rev. Mr. Smith, of St. Thomas' church, Canon Farrar spoke of the propriety of placing an inscription on the side of the monument, which was legends and Mr. Field said that if the Canon would write one he would have it made a composition of Dean Stanley's contribution. Canon Farrar accordingly wrote the following:

"Brave, gifted, young, he did and dared all at his country's bidding and died for her sake a shameful death, yet England buried him in Westminster Abbey. Washington mourned for his hard fate and a generous son of America, when he hears her own Nathan Hale, raises this monument on the spot where his gibbet stood and his body lay."

### "Archdeacon of Westminster."

New York, Nov. 6.—Gen. James H. Stokely says: "McClellan was vice president of the Ohio & Mississippi railroad when Sumner fell, and was made major general of volunteers, with headquarters at Cincinnati. Grant did apply to McClellan for an appointment, but was refused. After Grant went to Springfield, I was then military adviser to Governor Yates, and on one day a man approached me and said to me, 'Mr. Grant and wanted an appointment in the army, and asked me to intercede with Governor Yates.'

"Grant's habits were bad and were known to the governor and myself, but I got the governor to make him a clerk in the adjutant general's department. "A few days later Governor Yates and I were walking down a street in Springfield when a regiment in wild disorder came along. They were from Missouri. The colonel was drunk in a wagon. They wanted a new colonel, so I asked the governor: 'Why don't you appoint Grant colonel?' Governor Yates did appoint Grant colonel of the regiment. Thus the statement in Grant's book that his appointment was unexpected by him is untrue. Grant knew that he had constantly asked me to intercede for him with Yates."

### Senator Sharon Dying.

SAN FRANCISCO, Nov. 6.—Senator William Sharon is not expected to live more than a few hours. He has sent for his friend Lloyd Lewis, the capitalist, and also his lawyers. He has been ill with malaria since he fell at the Palace hotel, for several weeks, but it was not thought that the sickness would prove fatal until a few days ago, when he suffered a relapse, the facts of which were carefully kept from the public.

### Pulitzer's Paper.

New York, Nov. 6.—At the World office it is authoritatively stated that the sensational dispatches widely published questioning the ownership of that paper are entirely without foundation. In fact, Mr. Joseph Pulitzer is not only the editor but the sole proprietor of the paper. He never signed the affidavit referred to in the dispatch and indeed never saw it. The World is technically published, as it has been for years, by the Press Publishing company, but every share of the stock of this corporation is owned by Mr. Pulitzer.

### Burning Chinese Steamer.

SEATTLE, W. T., Nov. 6.—A Chinese steamer in Lacombe has been burned. It is expected that troops will be landed here. Prominent members of the Chinese community of fifteen were summoned before the grand jury on the charge of intimidation. The meeting of the second anti-Chinese congress, scheduled for Olympia November 24, was announced in the labor organ. A request has been sent to Governor Squire for troops. It is possible that they will be landed in Seattle within forty-eight hours.

### Boycotting.

Houston, Tex., Nov. 6.—In accordance with instructions from the grand master workman, W. H. Giddens, of Galveston, all members of the Knights of Labor are boycotting all freight to and from Galveston, and in consequence an immense amount of cotton is accumulating in the yards and compresses. The direct navigation company is the only outlet. The Knights of Labor are very strong in this city, and they will no doubt be able to seriously impede the progress of all traffic, at least for the present.
